

# FAWCO Advocacy at the UN

Laurie Richardson  
UN Liaison

*“The key factor to achieve the goals of the GCM is the political will of member states and their commitment to fulfill it.*”

*The Global Compact is not the end of the journey, but the beginning for all partners to work together toward achieving its goals...”*

*“Civil society are making themselves heard through protests and actions at the conference center.*

*People are demanding action from their governments, but in fact, immediate and drastic lifestyle changes are required from each and every one of us.”*

## UN SDGs QUIZ

## True or False?

Shifting as little as 9.5% of global military spending to agriculture and infrastructure in poor communities could eliminate extreme poverty and hunger by 2030.

In Malawi, female-headed households are more than twice as likely as male-headed households to reduce the number of meals they eat when experiencing climate shocks.

Breast cancer is the largest killer of women worldwide, causing over 9 million deaths each year.

Investing in education programs for girls can return \$5 for every dollar spent.

Disasters such as droughts, floods and storms kill more men than women due to gender differences.

## UN SDGs QUIZ Multiple Choice

Women do 75% of unpaid care work. Women's rights groups argue that it must be given economic value and accounted for in national statistics. Its value is estimated at:

\$50 billion

\$2 trillion

\$10 trillion

Women are half the world's working-age population but generate only 37% of GDP. Closing gender gaps in work could add how much to annual global GDP in 2025.

\$12 trillion

\$28 trillion

The FAO estimates that fewer than 20% of landholders globally are women. Closing this gender gap would reduce the number of hungry people by:

5-10%

10-15 %

Over 15%

What percent of the world's plant and animal species could become extinct if the global temperature increase exceeds 2.5 degrees centigrade?

10%

30%

50%
