

FAWCO TARGET PROGRAM 2019 - 2022

Health: Empowering Women and Girls by Ensuring Healthy Lives and Promoting Well-Being

The Target Program demonstrates the power of FAWCO Member Clubs working together toward a common goal to create change and to increase knowledge and awareness of the global issues impacting women. The Target Program follows a three-year cycle of issue awareness and education, project selection, fundraising, project monitoring, review and evaluation.

At the FAWCO Biennial Meeting in Edinburgh (March 21 - 24, 2019), **Health: Empowering Women and Girls by Ensuring Healthy Lives and Promoting Well-Being**, was announced as the overarching theme for the FAWCO Target Program 2019 - 2022.

Education & Awareness

Over the next three years, we will take a deep dive to learn what matters in women's and girls' health. In our monthly **Target Blog: Health Matters** we will explore the issues affecting the health and well-being of women and girls around the globe; become familiar with the goals established by world leaders in health to remedy these injustices; and look at the impact health has on women's and girls' lives, families and communities, and on society.

The Target Project

The Target Project is a way for FAWCO members to make an actionable investment to empower women and girls through health. With the support of The FAWCO Foundation we will employ the energy and generosity of our Member Clubs by fundraising for a single project supporting women's and girls' health. **We will accept applications for project proposals from May 1 to September 30, 2019.** A Selection Committee will present a short list of proposals to Member Clubs to vote on and the winner will be announced at the FAWCO Interim Meeting in Luxembourg in March 2020.
